

# VAR SOL

## Chemical Names:

Not Applicable: Blend

## Chemical Family:

Petroleum Hydrocarbon

## Components - May Contain Variable Amounts Of:

Stoddard Solvent, Trimethylbenzene

## Extinguishing Media:

Water spray, foam, dry chemical

## Special Fire Fighting Procedures and Precautions:

Use water spray to cool fire exposed surfaces and to protect personnel. Isolate "fuel" supply from fire. Avoid spraying water directly into storage containers due to danger of boilover. This liquid is volatile and gives off invisible vapors. Either the liquid or vapor may settle in low areas or travel some distance along the ground or surface to ignition sources where they may ignite or explode.

## Fire and Explosion Hazards:

Combustible Liquid, can form combustible mixtures at temperatures at or above the flashpoint. Static Discharge, material can accumulate static charges which can cause an incendiary electrical discharge. "Empty" containers retain product residue (liquid and/or vapor) and can be dangerous. **DO NOT PRESSURIZE, CUT, WELD, BRAZE, SOLDER, DRILL, GRIND, OR EXPOSE SUCH CONTAINERS TO HEAT, FLAME, SPARKS, STATIC ELECTRICITY, OR OTHER SOURCES OF IGNITION: THEY MAY EXPLODE AND CAUSE INJURY OR DEATH.** Empty drums should be completely drained, properly bunged and promptly returned to a drum reconditioner, or properly disposed of.

## Health Hazards:

**Eye Contact** - Slightly irritating but does not injure eye tissue. **Skin Contact** - Frequent or prolonged contact may irritate and cause dermatitis. **Inhalation** - High vapor/aerosol concentrations (greater than approx. 1000 PPM) are irritating to the eyes and the respiratory tract, may cause headaches, dizziness, anesthesia, drowsiness, unconsciousness, and other central nervous system effects, including death. **Ingestion** - Small amounts of this product aspirated into the respiratory system during ingestion or vomiting may cause mild to severe pulmonary injury, possibly progressing to death.
